

CITIZEN'S PROGRAM

Software and consulting services for a carpool program provided by a city, a municipality or a transit agencies

WHAT IS A CITIZEN'S PROGRAM?

This type of program allows a city, region authority or a transit agency to offer a carpooling program in specific region

A TURNKEY SOLUTION

CarpoolingNetwork.com puts his tools, expertise and experience available to its clients in order to implement and effectively manage a carpool program. The turnkey solution allows an organization to benefit from an effective carpool program, while allowing minimal time in human resources.

UN LOGICIEL DE COVOITURAGE À LA FINE POINTE DE LA TECHNOLOGIE

- 

Branded carpool website
A branded carpool website is designed to the image of the organization while the software and its features are integrated to it.
- 

Software that allows automatic matching
Simple and automated, the software allows users to find carpoolers with a similar itinerary for daily commute, business travel or one time trip.
- 

Software integrated into a strong network
Thousands of registered users and many clients are using our online software all over Canada and in many locations in the United States. Citizens benefit from a network with potentially active users in your area.
- 

Carpool parking lot and incentives
Location of carpool parking lot can be integrated to the software to help with meeting points of carpool buddies.
- 

Data and statistics for program managers
Thanks to the many features of the software, program managers have access to data and statistics regarding the use of the program as well as commuting habits of their community.
