

EMPLOYER'S PROGRAM

Software and consulting services for a carpool program provided by an employer

WHAT IS AN EMPLOYER'S PROGRAM?

An employer's program allows an organisation to offer a carpooling program to its community and to manage incentives.

A TURNKEY SOLUTION

CarpoolingNetwork.com puts his tools, expertise and experience available to its clients in order to implement and effectively manage a carpool program. The turnkey solution allows an organization to benefit from an effective carpool program, while allowing minimal time in human resources.

A STATE-OF-THE-ART CARPOOL SOFTWARE

- 
Branded carpool website
 A branded carpool website is designed to the image of the organization while the software and its features are integrated to it.
- 
Software that allows automatic matching
 Simple and automated, the software allows users to find carpoolers with a similar itinerary for daily commute, business travel or one time trip.
- 
Software integrated into a strong network
 Thousands of registered users and many clients are using our online software all over Canada and in many locations in the United States. Your employees benefit from a network with potentially active users in your area.
- 
Solution suitable for all sizes of organizations
 Whether you are a small or large size organisation, our software can easily manage all of your buildings throughout Canada and the United States.
- 
Data and statistics for program managers
 Thanks to the many features of the software, program managers have access to data and statistics regarding the use of the program as well as commuting habits of their community.

Turnkey management of incentives

Many incentives can increase employee involvement: reserved parking permit, guaranteed ride home, contests, draws, etc. Depending on the context and challenges of your organization, CarpoolingNetwork.com will direct you to the appropriate options.

Automated process of file certification

The system validates the identity of employees in real time which enables the access to the program and its incentives.

SUPPORT AND EXPERTISE

CarpoolingNetwork.com provides its expertise to assist you in the implementation and promotion of the program:

- Personalized implementation plan ;
- Detailed communication plan;
- Development of awareness campaigns;
- Conception of promotional material and various communication tools;
- Management of contests and draws.

OTHER FEATURES OF THE SOFTWARE

Commuting habit diagnosis

CarpoolingNetwork.com can help you to conduct a commuting habit survey while keeping track of the carbon footprint. The results are a good tool to identify specific transportation needs.

Business travels management

Our innovative solutions can be adapted to the needs of your organization to help you implement your environmental policy while reducing business travel expenses.

OTHER TRANSPORTATION MANAGEMENT SOLUTIONS

You want to implement several alternatives to solo driving in order to facilitate commuting to work or you would like to know more about other transportation management solutions that might apply to your organization?

Contact us to know more about further options :

- Platform centralizing all alternatives to solo driving car;
- Shuttle service;
- Vanpool;
- Etc.
